Exodus to the Virtual World: How Online Fun Is Changing ...

The central theme of Exodus is the concept of "attention migration". That is: that more and more people choose to immerse themselves in synthetic worlds (Castronova's word instead of "virtual worlds") - MMOGs (Massively Multiplayer Online Games), like Second Life and World of Warcraft.

Exodus to the Virtual World: How Online Fun Is Changing ...

Virtual worlds have exploded out of online game culture and now capture the attention of millions of ordinary people: husbands, wives, fathers, mothers, workers, retirees. Devoting dozens of hours each week to massively multiplayer virtual reality environments (like World of Warcraft and Second Life), these millions are the start of an exodus.
