Nurse-Family Partnership - Child Trends

The Nurse-Family Partnership was established in 1977 as a research demonstration project in Elmira, N.Y. by David Olds and colleagues. The program has expanded to serve between 9,000 and 10,000 families in 23 different states annually (per Peggy Hill, Deputy Director, National Center for Children, Families and Communities at the University of Colorado). NFP is operated out of the National

How Proteolysis Drives the Cell Cycle | Science

Oscillations in the activity of cyclin-dependent kinases (CDKs) promote progression through the eukaryotic cell cycle. This review examines how proteolysis regulates CDK activity by degrading CDK activators or inhibitors and also how proteolysis may directly trigger the transition from metaphase to anaphase. Proteolysis during the cell
