0521810035 - Illustrated Pathology of the Bone Marrow - by Attilio Orazi, Dennis O'Malley and Daniel Arber

Excerpt: 1. Introduction. Indications for bone marrow examination. Bone marrow examination, including both aspiration and biopsy sampling, can be performed on virtually any patient. However, patients with coagulation deficiencies or profound thrombocytopenia may experience prolonged bleeding, which cannot be controlled by pressure bandages. In these rare cases, specific treatment (e.g.
