Editorial: Child and Adolescent Mental Health: a global ...

Child and adolescent mental health services research involves the study of access, utilization, financing, and clinical- and cost-effectiveness of mental health services provided to children and

Examining the research base for child mental health ...

Abstract. This article reviews the existing research base for child mental health services and policy. It emphasizes the importance of research that looks at the overall community-based system of care as the unit of analysis, and stresses the need to maintain a systems perspective, even when research is focused on components of the overall system.
